Professor and Director, Department
of Physical Education & Sports, Sree Sankaracharya
University of Sanskrit, Kalyati, Ernakulam

Edge- Moving Beyond Confines People, Paradigm, and Praxis

In today's era of Artificial Intelligence and hyper- globalization, we're witnessing unprecedented opportunities for growth and innovation. However, despite the progress made in evolving epistemologies and pedagogies, certain approaches to cultural diversity, border politics, racial equality, mental health, human behaviour, commercial sustainability, organisational synchronisation, environmental protection and economic justice remain inadequate and often incompatible.

This disconnect has sparked intense debates, converging opinions, and skeptical views. To effectively navigate the complexities of our contemporary world, it's imperative that we adopt more cohesive and forward-thinking strategies.

To stay ahead in today's fast paced- world, it is also imperative to move beyond the constraints of our current knowledge practices, debates, approaches and strategies. This becomes even more pertinent when it comes to questions of progress, education, and future generations, particularly in the age of Artificial intelligence.

As such, this conference is a conglomeration of experts from diverse fields to collaborate, exchange knowledge, design practices, enhance strategies and promote skills to unlock a future full of opportunities.

CONFERENCE SCHEDULE

Day 1 30.01.2025 (Thursday)

8.30 am : Registration

10 am : Inaugural Session (Venue: Event Centre)
